LLS™ Liquid Laundry Systems

BOOSTER PLUS

DESCRIPTION

BOOSTER PLUS is for low to moderate hardness water where a Heavy Duty liquid alkali is needed. **BOOSTER PLUS** is designed for commercial laundries and institutional plants as well. The product contains sodium based alkali additive for extraordinary grease and soil removal as well as water hardness sequestrants. **BOOSTER PLUS** contains the preferred ingredient known to commercial and industrial laundering for higher titrations and better saponification.

PERFORMANCE

BOOSTER PLUS contains a higher alkalinity factor for removal of fats and vegetable oil stains. Effective in water hardness up to 10 grains.

ADVANTAGES

- **BOOSTER PLUS** is fed as received. Requires no dilution.
- Functions in high and low temperature and low to medium water hardness environments.
- Provides sufficient alkalinity for fatty oil type stains.

HANDLING PRECAUTIONS

BOOSTER PLUS contains sodium hydroxide. Precautions should be taken while handling. Do not take internally. Upon contact with hands or eyes, flush with plenty of water and get medical attention. If possible, neutralize with mild acid, i.e. vinegar.

DIRECTIONS

- | | |
|-------------|--|
| Medium Soil | 2 - 4 ozs per 50 lbs. of wash at 130° - 160°F. |
| Heavy Soil | 4 - 6 ozs per 50 lbs. of wash at 130° - 160°F. |
