BRITE C

DESCRIPTION

BRITE C is a blend of surfactant and broad-spectrum bleach and whitening agent safe on all types of fabrics including colored garments.

PERFORMANCE

When used with PARA BREAK C-1, **BRITE C** provides a powerful detergent system with the added benefit of safe colorfast bleaching and stain removal. This product was designed for today's blended and synthetic fabrics, but is also highly effective on all-cotton items.

ADVANTAGES

- Reduces substantially the risk of fabric damage due to chlorine type bleach.
- Increases garment life
- Not harmful to colored linen
- Does not adversely affect permanent press finishes or flame retardant treatments.
- Maintains built-in linen safety features as they remain attractive and serviceable.

DIRECTIONS

Linen and Industrial Garments

Use 4 - 8 oz. per 100 lbs. of wash in the break operation along with usual alkali.
