BATHWORKS™

(Concentrated Bathroom, Ceramic Tile & Tub Cleaner)

DESCRIPTION

BATHWORKS™ is an environmentally friendly, concentrated, superior, non-abrasive tile and tub cleaner. The concentrated form allows for an "extremely" economical usage cost, and the ingredients are non-toxic, readily biodegradable, and meet or exceed the EPA criterion 3.4.3 for cleaners in the Green Seal Environmental Standard for Lodging Properties (GS-33).

Once diluted per the directions below, this product can be used to effectively clean fiberglass enclosures, ceramic tile, porcelain, chrome, shower doors, plastic wall tile and marble.

DIRECTIONS FOR DILUTION OF CONCENTRATED BATHWORKS™

Dilute product as follows:

- i) To a 1 gallon container - Add 18 ounces of **BATHWORKS**. Fill with water to top.
- C. To a quart bottle - Add 5 ounces of **BATHWORKS**. Fill with water to top.
- D. Through a dispenser - Dilute to a 6:1 solution.

DIRECTIONS FOR USE OF BATHWORKS™ - After dilution

Spray from container directly on ceramic tile. Allow to set for 2 or 3 minutes. Use wash rag or brush to agitate residue on walls. Rinse with warm water. Dry with clean cloth. Will remove soap buildup and grime on walls, floors, shower doors and shower curtains. Leaves no film. Safe to use. Can also be used safely on plastic wall tile and marble walls and floors.

PACKAGING

BATHWORKS™ is packaged in 4 x 1 gallon cases and 5 gallon pails.

CAUTION

Keep away from children. Highly allergic people should wear rubber gloves, but it is not generally necessary. If splashed liberally on skin, flush with water. For industrial use only.
