

Technical Product Bulletin

BRITE-C

BRITE-C is a blend of surfactant, broad-spectrum bleach, and whitening agent that is safe on all types of fabrics, including colored garments.

Performance

BRITE-C provides a high-efficiency detergent system with the added benefit of safe colorfast bleaching, stain removal, and sanitizing by hydrogen peroxide. Pariser created BRITE-C specifically for blended and synthetic fabrics and all-cotton items. Use BRITE-C against heavier industrial soil by adding an alkaline builder such as BILDEX or BOOSTER PLUS.

Advantages

- Substantially reduces the risk of fabric damage due to chlorine-type bleach
- Increases garment life
- Does not harm colored linen
- Does not adversely affect permanent press finishes or flame-retardant treatments
- Maintains built-in linen safety features as they remain attractive and serviceable

Directions

Personal clothing and athletic uniforms

Full-size top loader: 3 ounces

High-efficiency (HE) front load washer: 1.5–2 ounces

50-pound commercial washer: 4–6 ounces

Linen and industrial garments

Use 4–12 ounces per 100 pounds of wash in the break operation along with the usual alkali.

Packaging

BRITE-C is available in 4x1-gallon cases, and 5-, 15-, and 55-gallon containers.
