### **CEXP**

#### **DESCRIPTION**

**CEXP** is a highly active odor-counteractant effective for numerous applications involving the removal of organic type odors.

**CEXP** uses state of the art molecular encapsulation technology to remove odors of various types such as bodily excretions, feather and down, and smoke related sources.

#### **USAGE**

**CEXP** can be diluted at a rate of 3-6 oz. per gallon of warm water. Stock solution can be applied onto odor sources with pressure sprayer, mop, or other cleaning mixtures.

Smoke restoration of garments can be achieved in the Wet Cleaning process with a dosage of 1 ounce per 10 lbs. of goods in warm water.

**CEXP** can also be used in down feather washing processes at a rate of 4-8 oz. per hundred weight capacity of washer.

#### **PACKAGING**

**CEXP** is packaged in 5, 15, and 55 gallon drums.
