HI-TIDE™

DESCRIPTION

HI-TIDE is an environmentally friendly, concentrated all purpose laundry detergent designed for use on an extraordinary range of applications. **HI-TIDE** is non-hazardous, non-toxic and readily biodegradable. The product does not contain phosphates, NTA or Alkylphenyl Ethoxylates and meets or exceeds the EPA criterion for cleaning products in the Green Seal Environmental Standard 3.4.3 (GS-33).

PERFORMANCE

HI-TIDE is a unique detergent developed for washing durable press, polyesters, poly-cotton blends and other hard to clean fabrics. Together with our Earth Friendly alkaline builders and brighteners, product will remove greasy soils without affecting fabric crease or stain resistance qualities.

HANDLING and DIRECTIONS

HI-TIDE is a concentrate, and should therefore be utilized with a Pariser provided, liquid feed injection system, or dosed according to usage directions recommended by your Pariser Representative. Generally, 2-3 ounces of product are utilized per 100lbs of wash in light soil applications, and 4-5 ounces per 100lbs on Heavy soil are sufficient in the Break operation. Normal care should be utilized to prevent product contact with eyes or children.

PACKAGING

HI-TIDE is packaged in recyclable 5 gallon pails, and 15 and 55 gallon drums.
