

Technical Product Bulletin

N-SURF P

N-SURF P contains a carefully selected blend of anionic and nonionic biodegradable synthetic detergent and fluorescent brighteners. N-SURF P also includes a high concentration of a chelant-type additive to enhance its use in areas of high mineral concentration water.

Performance

N-SURF P is a detergent developed for washing durable press, polyesters, polyester-cotton, and other hard-to-clean fabrics. It removes greasy soils without adversely affecting fabric crease resistance qualities. Premium choice surfactant for use in high water hardness environments.

Advantages

- Excellent grease and soil suspending properties.
- Superior wetting action.
- Safe to use on all types of fabrics.
- Liquid — instantly goes to work.
- Fast rinsing.
- Equally effective in high or moderate hardness water, low or high temperatures, and low or high alkalinity.

Directions

Sheet Formulas: Use 3–5 ounces per 50 pounds of wash in the break operation along with the usual washing supplies.

Linen and Industrial: Use 4–8 ounces per 100 pounds of wash in the break operation with 2–3 pounds of alkali and detergent.

Shirt Formulas: Use 6–8 ounces per 50 pounds in 160°F break operation.

Packaging

N-SURF P is available in 5-, 15-, 30, and 55-gallon containers.
