## PARA-TANN

### DESCRIPTION

**PARA-TANN** is the product of choice for the removal of beverages, liquor, tea, coffee, grass and other tannin type stains. It has direct application to the spotting board of professional dry cleaners and most commercial laundries.

### APPLICATION

1. Before spotting unfamiliar material or garments, always test **PARA-TANN** on inside seam for colorfastness of dye.
2. Apply **PARA-TANN** directly to the stained area of the linen.
3. If necessary, work the area gently with brush or spotting bone.
4. Level or rinse with steam gun or water, or put into normal wash process.

### PACKAGING

**PARA-TANN** is packaged in one gallon plastic containers, six to a case.
