SMARTY PANS

DESCRIPTION

SMARTY PANS is an effective 100% biodegradable, fast-acting liquid pot and pan detergent for manual washing applications. A blend of natural and biodegradable detergents provides rich sudsing and quickly loosens grease, protein film, and hard-to-remove food deposits.

SMARTY PANS is mild on hands, mixes instantly and is effective in hard or soft water.

SMARTY PANS is safe on aluminum ware and works well in the washing of glass and crystal.

DIRECTIONS

SMARTY PANS can be dispensed at the rate of $\frac{1}{3}$ - $\frac{1}{2}$ ounce of product per 1 gallon of water. It should be added to the pot sink prior to or during filling.

SMARTY PANS works best in water 90° - 120°F. More product may be needed in cold or harder water applications.

HANDLING

Care should be taken to avoid contact with eyes and mucous membranes. In case of direct contact, flush liberally with water. Take care not to store product below 32°F. At recommended levels of usage, product is entirely safe on hands and aluminum.

PACKAGING

SMARTY PANS is available in 4x1 gallon cases and 5 gallon pails.
