## SPRAY TEX

### DESCRIPTION

**SPRAY-TEX** is a Dry-side spot remover that can be used for wet and dry-side, pre and post spotting applications. **SPRAY-TEX** is safe to most garments, materials and dyes when used in accordance with usage instructions.

### APPLICATION

**SPRAY-TEX** is a highly effective **spray spotter/spotting agent** with the ability to work on a wide range of dry and wet-side stains. Effective on the spotting board in a spray tank mixed with water, or for applying directly for dry-side stain removal. **SPRAY-TEX** is compatible with perc and hydrocarbon solvent systems.

### USAGE

**SPRAY-TEX** should be used according to the following directions:

### NOTES:

**Always test unfamiliar fabrics for color fastness!**

1. For Dry-Side Spotting: Apply **SPRAY-TEX** liberally to stained area directly from the container. Tamp with tamping brush or gently work with bone scrapper until stain lifts. Dry-clean garment in perc or hydrocarbon.
2. For Spray Tank Applications: For spray tank and general spotting, mix 8 parts water to 1 part **SPRAY-TEX**. Mix thoroughly. Spray directly onto soiled area and dry-clean.

### PACKAGING

**SPRAY-TEX** is packaged in 4 x 1 gallon cases.
