## PARALINE WET-DETTE

### DESCRIPTION

**PARALINE WET-DETTE** represents a breakthrough in Wet-Cleaning innovation chemistry.

**PARALINE WET-DETTE** performs on the "acid" side, thereby preventing dye loss on "Dry Clean Only" and wet clean fabrics. Low pH washing also reduces rinsing requirements and as such, reduced utility usage and formula wash times are achieved.

### APPLICATION

Created specifically for wet cleaning machine applications, this product has broad use for wet cleaning or as a laundry detergent and is compatible with all fabrics.

### DIRECTIONS FOR USE

1. For wet cleaning machines -  
1.0 - 1.25 oz. per 10 gallons of water
2. For conventional washers - 3-4 oz. per 50 lb. loads  
(Do not wash and bleach simultaneously.)
3. For Top Loaders - Add according to the following table:
4. For CBW machines contact your Pariser representative

	<u>Light Soil</u>	<u>Heavy Soil</u>
High Water Level	2 oz.	4 oz.
Medium Water Level	1 oz.	3 oz.
Low Water Level	½ oz.	2 oz.

5. For fabrics such as wool blankets, cotton sweaters, and polo shirts, add **PARALINE HYDROCON** or **SOFT-XL** to the final rinse to produce a soft, supple hand.

### PACKAGING

**PARALINE WET-DETTE** is packaged in 4x1 gallon cases and 5, 15, and 55 gallon drums.
