BREAK THRU

DESCRIPTION

BREAK THRU is a fast acting, easy-to-use stripper especially formulated to remove most waxes, sealers, and tile coatings. Product removes multiple layers of finish without damage to the floor. **BREAK THRU's** controlled foam characteristics make it an ideal choice for all floor-stripping applications, including auto scrubber use.

DIRECTIONS

- Apply a liberal amount of diluted solution in a localized area of approximately 100 square feet. Allow **BREAK THRU** to penetrate and loosen finish for 5 - 10 minutes.
- Scrub area with a heavy-duty stripping pad or grit brush.
- Pick up solution with a mop and bucket or a wet vacuum.
- Rinse thoroughly two times and allow to dry. (For increased gloss and more thorough sealing, buff or burnish bare floor prior to applying new sealer.

DILUTIONS

- Minimal buildup..... 16 oz. per gallon of water
- Moderate buildup..... 32 oz. per gallon of water
- Heavy buildup..... 64 oz. per gallon of water

HANDLING AND PACKAGING

BREAK THRU is packaged in 4x1 gallon cases. Store in cool, dry, well ventilated area. If spilled, dike and mop up. Use protective eye and skin wear when using. If contact with eyes, flush forcibly with water thoroughly for 15 minutes. If contact with skin, remove contaminated clothing and rinse skin for 15 minutes. Inhalation: Remove to fresh air. If swallowed, dilute with water and induce vomiting. Consult label and MSDS for further instructions.
