LLS™ Liquid Laundry Systems

ECO-SOFT

ECO-SOFT is a non-toxic, rapidly biodegradable product that provides premium quality softness to reduce static and enable one to obtain the desired fabric texture and feel required. **ECO-SOFT** is safe for all fabrics.

PERFORMANCE

Fabric softeners are surface active agents possessing properties which overcome harshness in fabric which may be characteristic of the fabric itself or the result of the laundering process. These agents ionize in solution yielding positively charged ions. Cellulosic fibers, such as cotton, have a negative electrical charge when wet and consequently, attract and hold the positively charged ions to their surface.

ADVANTAGES

- Shortens extraction time.
- Reduces drying time, conserves energy.
- Makes shake-out and pressing easier.
- Makes pulling loads easier.
- Helps prevent articles from sticking to extractor walls.
- Imparts fluffiness to treated fabric.
- Product meets the EPA criterion 3.4.3 for cleaners in the Green Seal Environmental Standard for Lodging Properties (GS-33).
- Helps prolong life of fabrics.
- Reduces static and wrinkling.
- Helps avoid sticking washer doors.
- Articles ironed or pressed have smoother finishes.
- Inhibits bacterial growth between washings.
- Improves "hand" and "luster" of treated textiles.

DIRECTIONS

ECO-SOFT can be used at the rate of 3-4 oz. per 100 lb. of wash or as required to achieve desired hand.
