LLS™ LIQUID LAUNDRY SYSTEMS

PARA N-BRITE

DESCRIPTION

PARA N-BRITE is an infinitely soluble fully stable liquid chlorine type bleach. **PARA N-BRITE** is an effective stain remover, and also provides disinfection capability. The product is very active, yet a safe choice for commercial and institutional needs.

PERFORMANCE

PARA N-BRITE reactivates the carryover soap in the bleach operation, helps tie up iron in wash water, and serves to whiten wash as it removes stains.

ADVANTAGES

- Double Action - Bleaches and at the same time strips out lime and acid soaps to restore fabrics to sparkling whiteness.
- Uniform rate of chlorine release produces effective stain removal, but does not tender fabrics.
- Limits carryover in the sour bath.
- Works effectively in water temperature as low as 135° F.
- Unsurpassed for safety and effectiveness.
- Ideal for use in automatic feeding equipment.

DIRECTIONS

Light to Medium Soil

Use 6 - 8 oz. per 100 lbs. of wash at 135 -145°F.

Heavy Soil

Use 16 - 18 oz. per 100 lbs. of wash at 135 -145°F.

Rejected Stain and Mildewed Linen

Use 8 oz. to 1 lb. per 100 lbs. of wash at 150°F.
Run the bleach bath for at least 15 minutes.

HANDLING

PARA N-BRITE is slightly alkaline. Normal precautions should be taken while handling. Do not take internally. If liquid gets in eyes, flush with plenty of water and get medical attention.
