POLY OX (Oxygen Bleach)

DESCRIPTION

POLY-OX is hydrogen peroxide type destainer for laundering applications where a non-chlorinated product is preferred. The product will not remove color or damage cotton or synthetic blends.

ADVANTAGES

POLY-OX has definite benefit where colors are being washed, and a bleaching agent is needed to remove stains.

POLY-OX does not leave a residual which can cause cotton damage or yellowing in the presence of heat of dryers or ironers.

While the product prefers temperatures of 145°-165° F for optimum use, it will not present the problems associated with chlorine in cooler temperatures.

POLY-OX can reduce rinsing and separate bleach formula time.

DIRECTIONS

POLY-OX is used at the rate of 3-6 oz. /50 lbs. depending on stain degree, and can be used in the break operation of the wash formula.

HANDLING

POLY-OX should be handled with extreme care. It is an oxidizing agent, and can irritate skin on contact. Product should not be used with chlorine.

PACKAGING

POLY-OX is packaged in 6 and 15 gallon plastic containers.
