Par-RePeL (Textile Spray-On Water Repellent)

Description:

Par-RePeL is a ready-to-use, aqueous fluoropolymer designed for spray-on application to fabric to provide protection from oil and water stains. Product allows for safe levels of repellency without ill affect on fabric porosity, and/or color and hand quality.

Advantages:

- Ready to use solution, avoiding messy dip tank repellent methodology
- Non-Toxic, Non-Flammable, and Environmentally Friendly
- Does not clog fabric weave, allowing garment breathability
- Will not affect fabric feel or color

Usage Instructions:

Garments should be pre-cleaned and free of stains.

Spray the product as received from a pressure applicator or spray bottle.

Spray evenly, avoiding dripping. If dripping occurs, use a damp sponge to remove excess.

Tumble or air dry. Do Not Use Steam or Suzy to Finish Treated Fabrics.

Packaging/Storage:

Par-RePeL is packaged in 4 x 1 gallon cases. Protect Product From Freezing.
