**TYPHOON pH**  
[www.pariserchem.com](http://www.pariserchem.com)  
**(Low Foaming Manual Pot and Pan Detergent)**

### DESCRIPTION

**TYPHOON pH** is a concentrated, low-foaming detergent designed for use on glass-ware and other food-service items in heated and/or recirculating wash-sink, manual washing applications.

### APPLICATION

The Product is designed to provide superior grease and cleaning results with minimal sudsing, an important benefit in agitated water scenarios. **TYPHOON pH** has a mild, near-neutral pH, making it a safe choice for manual cleaning of Glass-Ware, and Flat and Dish Ware.

### USAGE

**TYPHOON pH** used at a rate of 1/3 ounce per gallon of warm water for pot and pan washing. As general cleaner, usage concentration will vary from 1 ounce to 2, or as much as 5 gallons of water depending upon soil burden.

For Laboratory Glass Washing, 1 ounce of Typhoon pH is recommended to be diluted with 2 gallons of warm water.

### PACKAGING

**TYPHOON pH** is packaged in 4/1 gal, 5 gal, and 55 gallon Plastic containers.
