ECO-SENSE PRODUCTS**WARE IT'S AT****Description**

WARE IT'S AT is a biodegradable, concentrated alkaline detergent packaged in specially-designed capsules for safe, automatic dispensing to single-rack and conveyor-type dish machines. This product offers controlled foaming characteristics for one-pass cleaning of heavy soil even in high water hardness applications. WARE IT'S AT has been certified by the EPA's Safer Choice program as an environmentally-preferred ware washing product.

**Directions**

WARE IT'S AT is the most effective when used in water temperatures ranging between 150°–160°F. Your representative will determine the correct dosage based on the parameters at hand. Generally, a range of 1/8–1/4 ounce of WARE IT'S AT per one gallon of water tank capacity is recommended. The dispensing feed is controlled by electronic monitoring probes.

Remove the lid to reveal the filter. Invert the container with the lid directed down and place gently into the feed dispenser. When the capsule is empty, discard appropriately and replace with a new one.

Handling

Keep out of the reach of children. Only mix with water through a Pariser-approved dispensing system. For industrial use only.

Protect skin, eyes, and mucous membranes from contact with this product. Use as directed.

Packaging

WARE IT'S AT is packaged in 9-pound capsules, 4 to a case.
