

## Technical Product Bulletin

### PROTEIN STAIN REMOVER

PROTEIN STAIN REMOVER removes blood, urine, milk, perspiration, and other protein-type stains. The product shows excellent application on the spotting board of professional dry cleaners and in most institutional laundries.

#### Application

- Before spotting unfamiliar material, always test the garment's inside seam for the dye's colorfastness.
- Apply PROTEIN STAIN REMOVER to the stained area of the garment.
- If necessary, work the area gently with a brush or spotting tool.
- Flush with a steam gun and feather dry before cleaning.

#### Packaging

PROTEIN STAIN REMOVER is available in 4x1-gallon cases.
