

Technical Product Bulletin

ULTRA

ULTRA is a high-efficiency, heavy-duty liquid wet-cleaning and laundry detergent made from a carefully selected blend of anionic and nonionic biodegradable synthetic detergent and fluorescent brighteners. Additionally, ULTRA contains a high concentration of a chelant-type additive, enhancing its use in areas of high mineral concentration water.

Performance

ULTRA is a unique detergent developed for washing durable press, polyesters, polyester-cotton, and other hard-to-clean fabrics. It effectively removes greasy soils without adversely affecting fabric crease resistance qualities. Premium choice surfactant for use in high water hardness environments.

Advantages

- Excellent grease and soil suspending properties.
- Superior wetting action.
- Safe to use on all types of fabrics.
- Liquid — instantly goes to work.
- Fast rinsing.
- Equally effective in high or moderate hardness water, low or high temperatures, and low or high alkalinity.

Directions

Laundering:

- **Sheet formulas:** Use 3–5 ounces per 100 pounds of wash in the break operation along with the usual washing supplies.
- **Linen and industrial:** Use 4–8 ounces per 100 pounds of wash in the break operation, along with 2–3 pounds of alkali.
- **Shirt formulas:** Use 6–8 ounces per 100 pounds in 160°F break operation.

Wet-cleaning: Use approximately 3/4–1 ounce per 10 pounds of garments for heavy soil, 1/2–3/4 ounce for medium soil. Minimize mechanical action and utilize several rinses.

Firefighting turnout gear: Use 3–4 ounces per 50 pounds wash load.

Packaging

ULTRA is available in 4x1-gallon cases, 5-, 15-, and 55-gallon containers.
