# OVEN EZE

### Description

OVEN EZE is a quick-acting liquid product for intensive carbonized soil applications. OVEN EZE can be used on ovens, grills, fat fryers, stove areas, steak platters, drains, vents, fans, and food dispensers for all types of heavy-duty cleaning.

OVEN EZE is safe when used as directed. Unlike aerosols, this product works on the grease without fuming.

### Directions

Apply the product at full strength directly onto carbonized baked-on grease with a spray dispenser or applicator. Let sit for 5–10 minutes, then rinse off with water. For general grease removal in kitchen applications, a diluted solution of 2–4 ounces of OVEN EZE to 1 gallon of water can be used in a spray dispenser. This product may also be dispensed through hand pump feeders.

### Handling

**DANGER: CONTAINS SODIUM HYDROXIDE. ALKALINE SOLUTION MAY CAUSE BURNS. KEEP OUT OF REACH OF CHILDREN.** Do not get in eyes, on skin or clothing. Avoid breathing vapors. Keep container closed. Use with adequate ventilation. Wash thoroughly after handling.

In case of contact with eyes, immediately flush with plenty of water for at least 15 minutes. Call a physician. In case of contact with skin, immediately flush with water for at least 15 minutes. Remove contaminated clothing. Call a physician. Wash clothing before reuse.

Do not use on painted surfaces or on aluminum materials and other soft metals like silver or pewter.

### Packaging

OVEN EZE is available in 4x1-gallon cases and 55-gallon containers.
