

Sparkling Ware — Tine and Tine Again

We have the “Ware With All” to do it **better**

**A chemical program that provides
safety, savings, and service**

**Count on Pariser Industries
for ware washing systems and
products that eliminate waste and
provide sparkling ware, all while
sanitizing your entire food service
operation. Our specially-designed
feeding systems give you the
precise amount of product
required for your particular
cleaning need – every time.**

Pariser service technicians will help you train your staff and perform preventative maintenance on your ware washing systems and equipment to assure you of a smooth-running, waste-reducing, and cost-saving operation. Our consultants will diagnose and solve your complex cleaning challenges, and recommend the best formula for your specific operation from our comprehensive product line.

Pariser is adept at identifying customer issues relating to procedures, results, and usage cost parameters across a wide variety of cleaning applications. We are passionate about delivering world-class products, competent technical service, extraordinary customer satisfaction, and value. Contact your Pariser representative or email info@pariserchem.com to learn more about the products that would be the most beneficial for your needs.

ECO-SENSE products are the sensible choice for you and the environment

Working closely with the U.S. Environmental Protection Agency (EPA), Pariser has developed an ECO-SENSE line of “green” ware washing products. The ingredients of these products have been meticulously screened for potential health and environmental effects. They are non-toxic, biodegradable, and contain safer chemical ingredients – without sacrificing quality or performance. Pariser offers the following ECO-SENSE products which are Safer Choice-certified by the EPA:

SMART RINSE Non-foaming, concentrated, dishmachine drying and rinse agent effective on silver, flatware, china, glassware, and plastic in hard or soft water.

SMART WASH Alkaline liquid automatic dishmachine product for heavy soil applications.

SMARTY PANS Fast-acting pot and pan liquid detergent for manual washing applications that is safe on aluminum ware, glass, and crystal and is effective in hard or soft water.

WARE IT'S AT Concentrated, capsulized, alkaline dishmachine detergent capable of one-pass cleaning of heavy soil even in hard water applications.

Dishmachine Detergents

ALUMINATE Concentrated, non-chlorinated, capsulized, alkaline detergent that is metal-safe and effective on pewter, aluminum, and other soft metals.

DISH MATE LT Concentrated, non-chlorinated, alkaline liquid dishmachine detergent for commercial low-temperature dishmachine washing applications.

MC 500 A powdered, dishmachine product that contains an alkaline builder, defoamer, and chlorine additive. Designed for use with under-counter, manually-fed dishmachines.

KEX PLUS Concentrated, non-chlorinated, alkaline liquid dishmachine detergent formulated for high-temperature dishmachine washing applications.

METAL SUDS Concentrated, non-chlorinated, metal-safe liquid detergent.

SPLENDID Concentrated, chlorinated, capsulized dishmachine detergent for use in hard water dishwashing applications.

WARE WITH ALL Concentrated, chlorinated, capsulized dishmachine detergent.

Manual Pot, Pan, and Glass Washing

PAN HANDLER A fast-acting, multi-purpose liquid pot and pan detergent for manual washing applications that loosens grease, protein film, and hard-to-remove food deposits. It is safe to use on aluminum, glass, and crystal.

POT-SHEEN A fast-acting, concentrated multi-purpose liquid pot and pan detergent for manual washing applications that loosens grease, protein film, and hard-to-remove, burned-on food deposits. It is safe to use on aluminum ware.

POT-STUFF Concentrated, high-sudsing, capsulized pot and pan detergent for manual washing of aluminum pots and pans, flatware, and glassware. Effectively removes grease, starch, and protein film even in hard water applications.

TYPHOON A concentrated, low-foaming detergent designed for use on glassware and other food-service items in heated and/or recirculating wash-sink, and manual washing applications.

Rinse Agents

ECCO-RINSE Economical, broad-range, concentrated dishmachine rinse and drying agent.

RINSE LT Economical, broad-range, concentrated rinse and drying agent for low-temperature dishmachines.

HSA RINSE Concentrated, high solids acid-based dishmachine rinse and drying agent for use in hard water applications.

KOOL CHLOR Chlorine-based sanitizer for use in low-temperature dishmachine operations.

Ancillary Products

CHINA-SOAK A stable, oxygen bleach-based, powdered destainer for plastic, china, coffee urns, and stainless steel tableware.

DE-LIME An acid-type film and lime scale remover that clears away build-up from dishmachines, steam tables, aluminum, and stainless steel equipment.

DETARN-L Liquid presoak and detarnisher for silver and stainless-steel flatware.

GREASE-OFF Quick-drying cleaner and degreaser ideal for cleaning floors, tiled areas, stainless counters, and machinery in the kitchen without leaving a filmy residue.

OVEN EZE Quick-acting, non-fuming, heavy-duty, solvenated liquid detergents that remove carbonized grease and deposits from ovens, grills, fat fryers, stove areas, steak platters, drains, vents, fans, hoods, and food dispensers.

PARA BC 100 EPA-registered quaternary disinfectant for pot sink, hard surface, and food processing equipment sanitation.

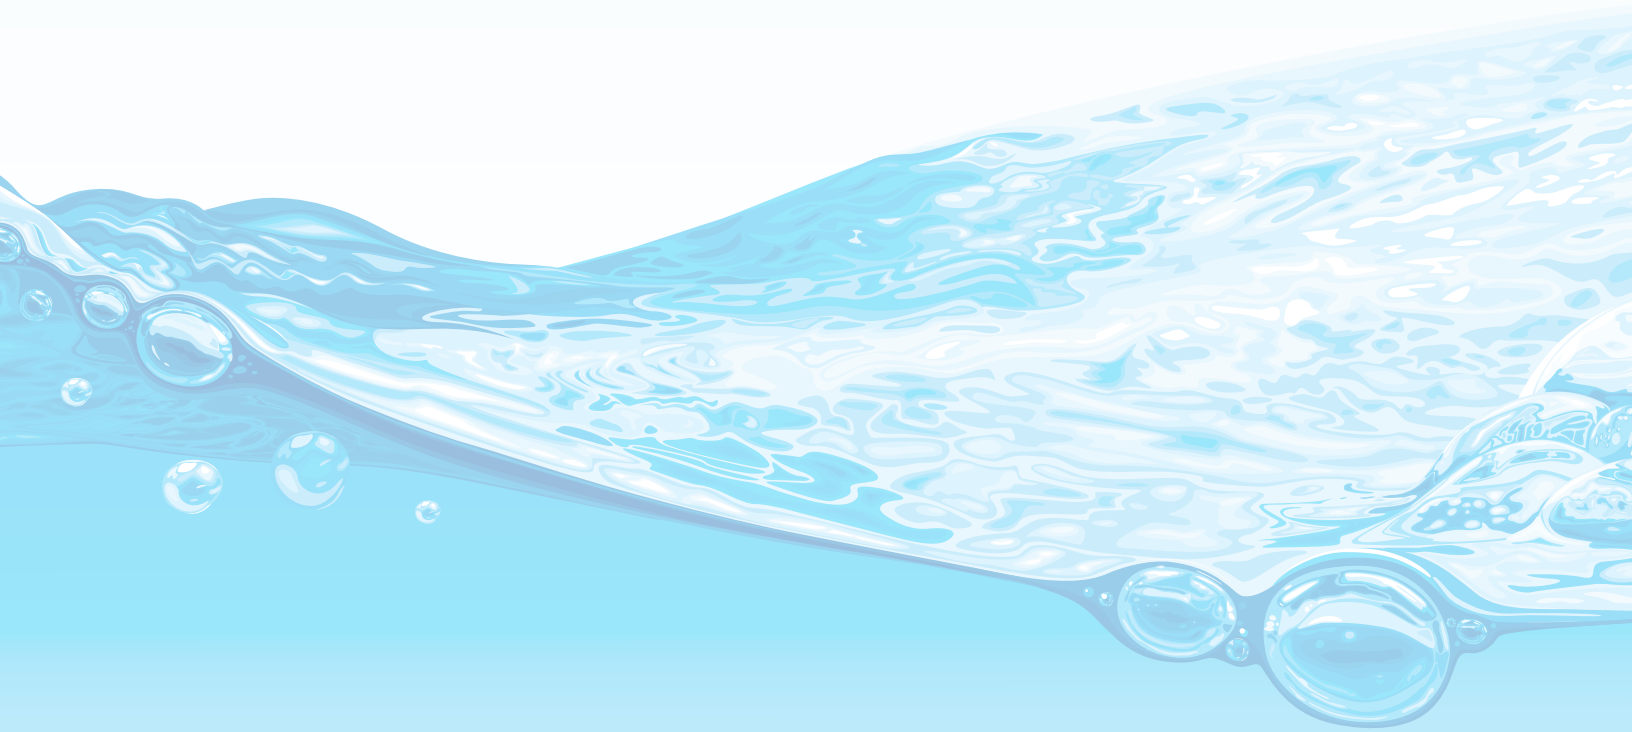

PARA BC 200 Quaternary all-purpose liquid cleaner and disinfectant with mildewstat and fungicide capabilities.

PARAZYME Ready-to-use, enzyme formulation for drain treatment, dumpsters, and prevention of grease build-up in piping and grease traps.

PRE-FER Concentrated, capsulized flatware presoak and silver detarnisher.
